

SECURE & STABLE BUILDING NETWORK

DIVUS SECURE NETWORK

A stable and protected connection between the connected DIVUS devices in a secured segment. Also 3rd-party products for building automation are compatible and can be integrated in the secure network segment.

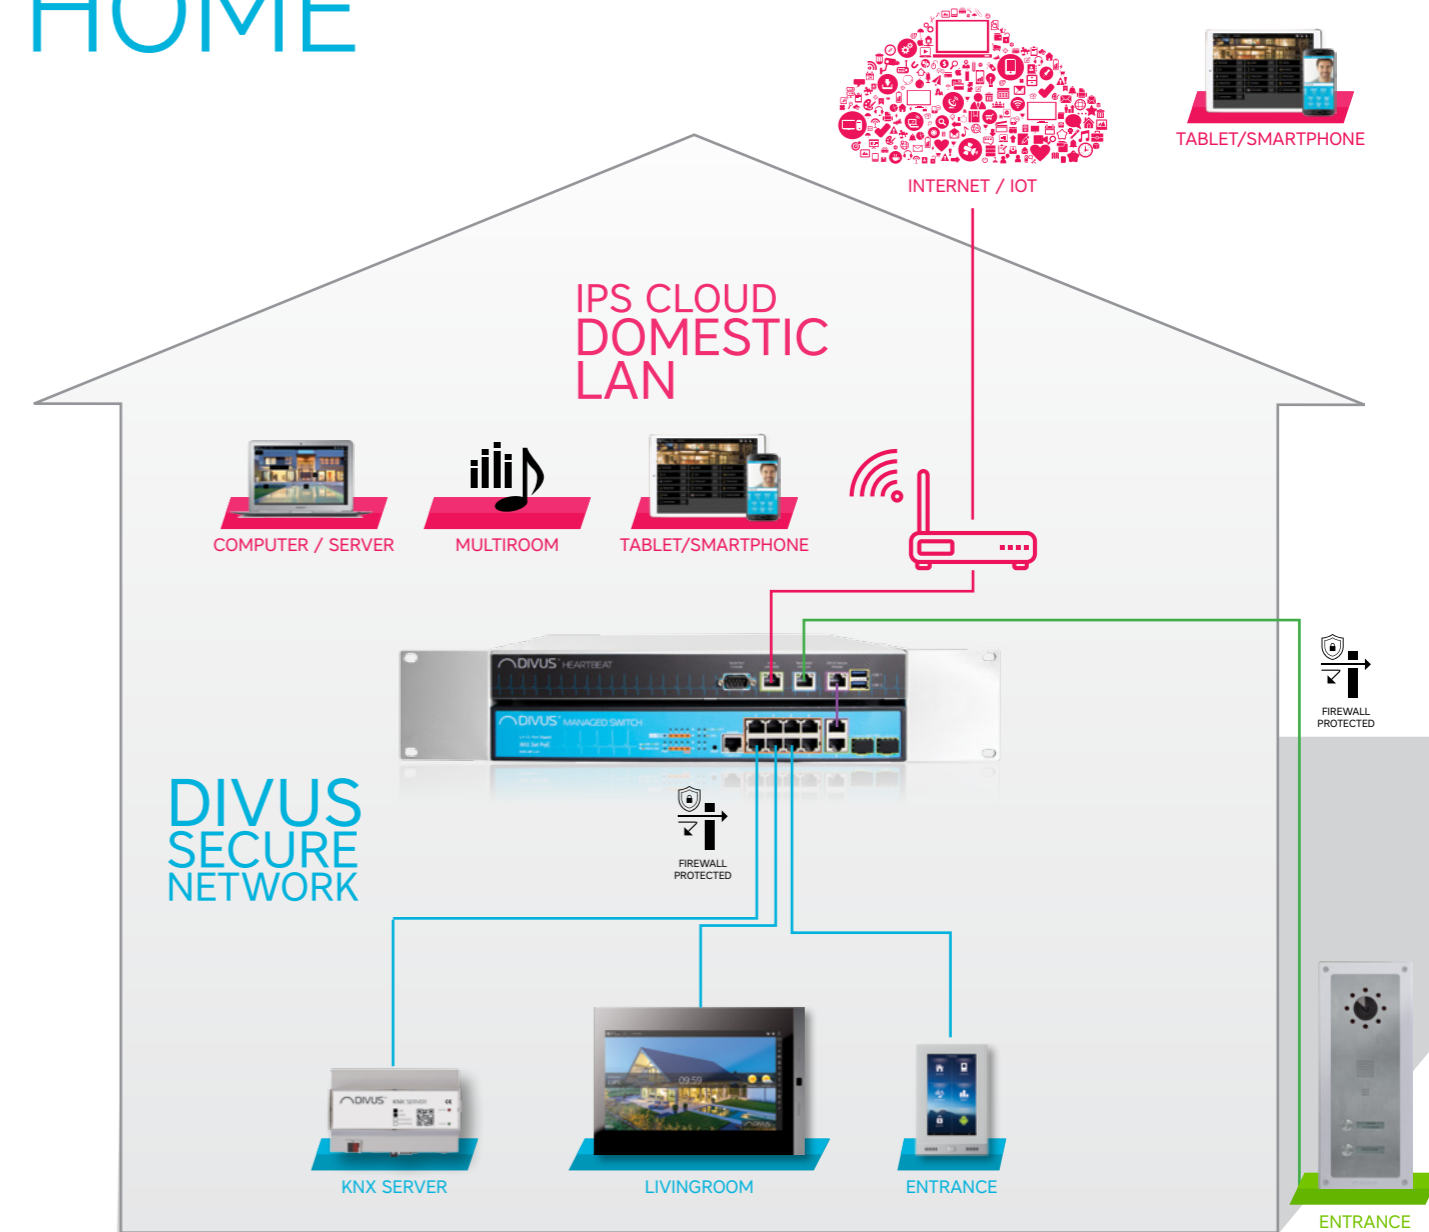

Other network devices, that are not part of the secure network and/ or building automation system should be connected to the usual LAN network and independently secured.

IPS CLOUD DOMESTIC LAN/WAN

RESIDENTIAL INTERCOM

The intercom system, in which internal and external devices interact, is protected by a firewall via its own port and is therefore completely safe while still offering an unrestricted functionality.

SIMPLE APARTMENT HOME

DIVUS HEARTBEAT controls your entire network. To have a secure and stable network all devices of your building automation system should be connected to the DIVUS HEARTBEAT.

RESIDENTIAL INTERCOM
