

Moonflower

DIVUS

The little brother of the DIVUS CIRCLE despite the smaller external dimensions, he is the „big“ in hardly anything. So he is a fully functional, **SIP-BASED VIDEO DOOR** intercom station including capacitive bell, **CAMERA**, proximity sensor and **RFID** module. The CIRCLE S is available with or without **DISPLAY**. The rear LED ring shines in a white, pleasant light. So CIRCLE S also makes a great figure as a full-fledged **WALL LAMP**.
